Aron+

11723 The Aron hospital bed is a height-adjustable multifunctional column bed that provides optimal qualities in the fields of aesthetics, functionality and maintenance.

Carriage

- Frame with 2 anodised aluminium side beams and 2 steel cross beams.
- High/low adjustment by means of 2 telescopic lifting columns.
- Trendelenburg and Reverse-Trendelenburg adjustment up to ±16°.
- Integral S castors Ø 150 mm on precision ball bearings, with central brake mechanism.
- Design pedal to activate the central brake mechanism or directional lock.
- The brake pedal is accessible in all bed positions.
- Finished with a synthetic cover cap.
- Open carriage to improve the accessibility under the bed and the ease of cleaning.

Mattress platform

- Mattress platform with 4 sections.
- The backrest is electrically adjustable up to ±70° with autoregression.
- The backrest is equipped with an inclination indicator.
- The knee rest is electrically adjustable up to ±34°.
- The footrest is manually adjustable for the Fowler position.
- Electric manipulations of the mattress platform sections are equipped with a clamp safety.
- Manual quick release of the backrest (CPR).
- Battery.
- The perforated, detachable synthetic mattress platform sections can be cleaned very easily.
- Standard equipped with reinforced cutouts for patients restraint straps.
- The backrest and footrest are equipped with integrated mattress holders.
- Telescopic bed extension possible up to 20 cm.
- Equipotential connection.
- 4 bed corners with integrated bumper castors.
- 4 bed corners with cases to install an IV rod or lifting pole.
- The bed panel is made of a metal frame (Vela) or a synthetic frame (* Lauro panel) and a solid laminate board.
- Aluminium side beams with integrated rail and accessory hooks.
- Built-in cable trough.

Electric bed manipulations

- The electric functions can be activated by means of a hand switch, a *mini-nurse box, a nurse box* (*) or a *satellite control* (*).
- The hand switch is equipped with a preprogrammed sleeping function.
- A *(mini-)nurse box* makes it possible to switch off several functions selectively.

Panel types
- Vela
- Lauro (*)
- Jaro (* only with Trix)
- Senzo (*)

Sideguards
- Atmosphère (*)
- Trix (* only with Jaro panel)

Accessories
We would like to refer to our accessory list.

(*) Option

Dimensions and technical data

- Width: 100 cm, Length: 211 cm
- Height variation of the mattress platform: ± 41 cm - ± 81 cm (var. 2%)
- Safe working load: 230 kg
- Weight (without options): 140 kg
- Mattress platform dimensions: 200 x 86 cm
- Mattress dimensions: 195 x 85 cm, thickness: 12 to 16 cm
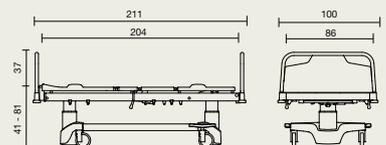

Materials and finishing

- <u>Metal</u>: epoxy-coating RAL 9006 *white aluminium*, anodised aluminum, chrome (*).
- <u>Synthetic</u>.
- <u>Solid laminate</u>.
- Self-lubricating synthetic hinges (= maintenance-free).
- Withstands the common cleaning products.

For more information about the **materials** and **construction**: please consult our material lists.
