

# Stool metal

**01039** Stable, simple and space-saving.  
Ideal for visitors in a patient room.

## Support

- The support of the metal stool is made of firmly welded bent tubes  $\varnothing$  22.
- The support is finished with an epoxy-coating.
- A chromium-plated layer can also be optionally chosen.
- The legs are equipped with synthetic glides.

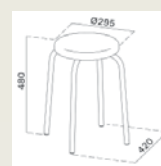

## Seat

- The upholstered round seat is made of chipboard and has rounded edges.
- If it is not upholstered, then the seat is made of high-quality plywood.
- The seat is upholstered with fire-retardant foam (thickness: 20 mm; density: 50 kg/m<sup>3</sup>) and finished with imitation leather (in case the customer chooses the upholstered version).

## Dimension

**01039** | 42,5 x 48 cm seat height

## Materials and finishing

- 
- **Metal:** epoxy-coating (light gray), chrome.
- **Wood:** plywood, chipboard.
- **Foam:** CMHR- and CM-foam (fire-retardant).
- **Upholstery:** see collection.
- Resistant to the common cleaning products.

For further information about used **materials**, **constructions** and **maintenance**: consult our materialfiles.
